WORK EXPERIENCE

- December 2024 - Present**
- Web Developer & Data Analyst Intern**
Primary Education Department, Ministry of Education, Youth and Sport (MoEYS)
- Processed and validated large-scale student data in the PLP System, ensuring accuracy and completeness for over 2.2 million student records.
 - Developed and maintained frontend modules for the Model School Standard System (Infrastructure Module) using React.js and Ant Design (AntD).
 - Analyzed school databases, prepared statistical reports, and assisted in identifying and resolving data quality inconsistencies.
 - Performed rigorous system testing in production environments before deployment to ensure module functionality.
 - Provided direct technical support, troubleshooting guidelines, and instruction to teachers and education officers.
 - Coordinated meetings, workshops, administrative documentation, and collaborated with cross-functional teams to improve system usability.

July 2024 -
November 2024

Office of Data Entry
2U Delivery Company

- Ensured accurate and efficient data entry into the company's software system, improving overall data integrity.
- Managed stock-in and stock-out processes, extracting daily stock-in and stock-out data.
- Set up products in the warehouse to be delivered to clients.
- Provided product-related information to shop staff, resolving issues promptly.
- Input product details into the system and calculated store cash registers for successful delivery confirmation.
- Calculated and verified driver collections for all cash-on-delivery (COD) customer products.
- Reconciled and checked all cash collections before final submission to the General Manager (GM).
